[Order No. 27]

AN ORDER MODIFYING ORDERS NO. 2 AND NO. 13 IN THAT DETERMINATION OF THE EFFECT OF INTRASTATE COMMERCE UPON INTERSTATE COMMERCE IN VARIOUS LOCALITIES SHALL BE MADE PURSUANT TO SPECIFIC HEARINGS TO BE HELD AT VARIOUS TIMES AT DIFFERENT POINTS WITHIN THE UNITED STATES

Pursuant to act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937, upon the claims presented to the National Bituminous Coal Commission by certain producers, producers' organizations, and other interested parties, that substantially all transactions in bituminous coal in intrastate commerce within the States of Alabama, Arizona, Arkansas, California, Colorado, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Michigan, Missouri, Montana, New Mexico, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, South Dakota, Tennessee, Texas, Utah, Virginia, Washington, West Virginia, Wyoming and the Territory of Alaska, directly affect interstate commerce in such coal and cause, and will cause, undue and unreasonable advantage, preference and prejudice as between such commerce in such localities on the one hand and interstate commerce in such coal on the other hand as such interstate commerce is regulated by the Bituminous Coal Act of 1937, the National Bituminous Coal Commission, by its Order No. 2, dated June 19, 1937,¹ directed that a hearing be held on the 12th day of July, 1937, commencing at the hour of ten (10) o'clock A. M., in the Hearing Room of the Carlton Hotel, Washington, D. C., for the purpose of determining the nature and extent of intrastate commerce in bituminous coal in the localities above named and the effect of such commerce on interstate commerce in such coal, and to determine what, if any, undue or unreasonable advantage, preference or prejudice would exist between localities in such commerce on the one hand and interstate commerce as regulated by said Act on the other hand, and what, if any, undue, unreasonable or unjust discriminations against interstate commerce in coal have occurred or will occur under the administration of Section 4 of said Act, to the end that the Commission might, after hearing, take such action as is necessary to give effect to the Bituminous Coal Code and the provisions of Section 4-A of said Act. Said order provided further, that following the commencement of the said hearing at Washington, D. C., the Commission would, in its discretion, designate the times and places for further hearings at points convenient to the respective localities named in said order, and that further notice thereof would be duly given to producers of bituminous coal.

It appears from the statements made and data submitted by interested parties at said hearing held in Washington, D. C., on July 12, 1937, and upon investigation by the Commission, that it would be advisable to hold separate hearings in the localities in which it appears that transactions in intrastate commerce in bituminous coal may affect interstate commerce in such coal in such localities, and that separate findings and determinations be made by the Commission with respect to the conditions existing in each locality; *now therefore*, the National Bituminous Coal Commission, under authority of the provisions of such Section 4-A, hereby orders and directs as follows:

1. That said Order No. 2, dated June 19, 1937, is hereby modified to provide for independent separate hearings in such localities as may be deemed necessary by the Commission. Further hearings shall, therefore, be held by the Commission pursuant to the provisions of said Order No. 2 only for the purpose of determining in what localities separate hearings shall be held. Any provisions in said Order No. 2 inconsistent with this modification are hereby revoked.

2. That notice of further hearings under the provisions of said Order No. 2, as hereby modified, and of hearings in individual localities will be given all interested persons in due course.

3. That Order No. 13 of the Commission, dated July 14, 1937,¹ providing for a hearing to be held at the Hearing Room of the Commission in the Deshler-Wallack Hotel, Columbus, Ohio, on July 28, 1937, with respect to transactions in intrastate commerce in bituminous coal in the State of Ohio shall be subject to this modification.

4. The Secretary of the Commission shall forthwith mail a copy of this Order to each known producer of bituminous coal in each of the localities aforesaid and to the secretary of each district board in each of the aforesaid localities, and shall cause to be published at the expense of the Commission a copy of this Order on three (3) consecutive days in a newspaper of general circulation in each of such localities. Each notice published need only contain the name of the particular locality affected in which such publication is made and need not contain this paragraph.

By order of the Commission.

Amend Regulation 2, Section 3 to read as follows:

SEC. 3. Any warehouseman conducting a warehouse licensed or for which application for license has been made shall have and maintain above all exemptions and liabilities net assets liable for the payment of any indebtedness arising from the conduct of the warehouse, to the extent of at least 20 cents per case of the maximum number of cases that the warehouse will accommodate when stored in the manner customary to the warehouse as

determined by the chief of the bureau, except that the amount of such assets shall not be less than \$5,000, and need not be more than \$100,000.

CHANGES IN DEFINITION OF DOCKAGE AND IN THE PROVISION FOR THE INSPECTION AND CERTIFICATION OF THRESHER-RUN BEANS

By virtue of the authority vested in the Secretary of Agriculture by the act of Congress entitled "An act making appropriations for the Department of Agriculture for the fiscal year ending June 30, 1938, and for other purposes," approved June 29, 1937 (Public No. 173, 75th Congress), I, M. L. Wilson, Acting Secretary of Agriculture, do prescribe and promulgate, effective August 2, 1937, the following amendments to the official standards of the United States for the inspection and certification of dry edible beans approved by the Secretary of Agriculture on June 29, 1935, effective August 1, 1935:

The paragraph on "dockage" under "definitions" shall be changed to read as follows:

Dockage shall apply only to thresher-run beans or beans which have not been recleaned and/or hand-picked and shall include dirt, stones, weed seeds, chaff, cereal grains, and all other matter other than beans which can be readily removed by the use of appropriate sieves or cleaning devices, and all small undeveloped beans and splits or pieces of beans that will pass through a sieve with perforations that will result in the smallest loss of marketable beans applicable to the principal use of beans of the class being tested, such sieve to have perforations of one of the following dimensions:

9/64 inch by 3/4 inch.
10/64 inch by 3/4 inch.
11/64 inch by 3/4 inch.
12/64 inch by 3/4 inch.
13/64 inch by 3/4 inch.
14/64 inch by 3/4 inch.

except that for the classes Lima, Baby Lima, and similar types, the sieve for which shall have round perforations either 20/64 inch, 22/64 inch, or 24/64 inch in diameter.

The quantity of dockage shall be calculated in terms of percentage based on not less than a 1,000-gram portion of the original sample including the dockage. In calculating total dockage fractional percentage of less than 1 percent shall be ignored.

Inspection and Certification of Thresher-Run Beans

The provision for the inspection and certification of thresher-run beans shall be changed to read as follows:

Beans of any class that have not been recleaned and/or hand-picked shall not be graded according to the table of grade requirements applicable to such class but shall be inspected and certified as to: (1) the class; (2) the percentage of total dockage, if any, with optional statement of the percentage each of small beans, splits, and foreign material which make up the total dockage; (3) the percentage of total defects in the dockage-free beans which shall include the percentage each of splits, damage, other classes, and inseparable foreign material, and, may include the percentage of cracked seed coats; and (4) the general appearance. All factors other than dockage and the analysis thereof shall apply only to, and be based on, the dockage-free sample, except general appearance which shall be based on the sample of beans after the removal of dockage and defects.

United States of America—Before the Securities and Exchange Commission

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 26th day of July, A. D., 1937.

IN THE MATTER OF AN OFFERING SHEET OF PRODUCING LAND-OWNERS' ROYALTY INTERESTS IN THE SHELL ET AL.-ISENSEE-FLATO TRACT, FILED ON JULY 19, 1937, BY JAMES W. TAIT COMPANY, INC., RESPONDENT

TEMPORARY SUSPENSION ORDER (UNDER RULE 340 (A)) AND NOTICE OF OPPORTUNITY FOR HEARING

The Securities and Exchange Commission, having reasonable grounds to believe and, therefore, alleging that the offering sheet described in the title hereof and filed by the respondent named herein is incomplete or inaccurate in material respects, or includes untrue statements of material facts, or omits to state material facts necessary to make the statements therein contained not misleading, or fails to comply with the requirements of Regulation B of the General Rules and Regulations promulgated by the Commission under the Securities Act of 1933, as amended, in the respect, or respects, hereinafter enumerated, to wit:

(1) In that the information concerning the number of wells now drilling in the field is not set forth under Division II, Item 13;

(2) In that the percentage of water in fluid produced, as set forth under Division II, Item 20 (b), does not appear to be correct;

(3) In that the estimation of recoverable oil contained in Division III may not be correct for the reason that it appears

² 2 F. R. 1387 (D.I.).

that 37% of the fluid produced from the tract involved is water; therefore, because of the water situation it is questionable if the amount of oil, as estimated, will be recovered;

It is ordered, pursuant to Rule 340 (a) of the General Rules and Regulations promulgated by the Commission under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, temporarily suspended pending a final hearing thereon for the purpose of determining whether said offering sheet is incomplete or inaccurate in any material respect, or includes an untrue statement of a material fact, or omits to state any material fact necessary to make the statements therein contained not misleading, or fails to comply with any requirements of Regulation B of such Rules and Regulations in the respect, or respects, hereinbefore enumerated; and

It is further ordered that respondent be, and hereby is, given notice that respondent is entitled to a hearing before the Commission, or an officer or officers of, and designated by, the Commission, for the purpose of determining such matters; that upon receipt of a written request from respondent, the Commission will, for the purpose of determining such matters, set the matter for hearing at a place to be designated by the Commission, within twenty days after receipt of such request; and that notice of the time and place of such hearing will thereupon be promptly given by the Commission.
